28 countries served | **−35%** load time | **99.9%** availability | **50K+** monthly users | **4×** Vodafone Star Award

PROFESSIONAL SUMMARY

Senior Frontend Engineer at VOIS (Vodafone Intelligent Solutions), building Angular and React platforms for Vodafone's 28 markets. I make enterprise apps fast and maintainable: **35% faster load times**, **99.9% availability** for 50K+ monthly users, and shared component libraries that cut feature development time by **25%**. I lead frontend architecture, mentor engineers, teach at ITI, and have earned four Vodafone Star Awards and two Quarter Hero awards.

WORK EXPERIENCE

Senior Frontend Developer — VOIS (Vodafone Intelligent Solutions) — Oct 2025 – Present · Cairo

Vodafone Group's technology hub (28 countries) · Vodafone Germany Web Factory

- Lead frontend development for enterprise web platforms in Angular, React, TypeScript and RxJS, owning Core Web Vitals, SEO and WCAG 2.1 accessibility.
- Designed Angular and React component libraries adopted by multiple teams, cutting feature development time by **25%**.
- Mentor **4 engineers** through code reviews, pair programming and architecture sessions.

Frontend Developer — VOIS (Vodafone Intelligent Solutions) — Apr 2024 – Sep 2025 · Cairo

- Built and optimized customer-facing apps including vodafone.de/stoerung, serving **50K+ monthly users at 99.9% availability**.
- Cut load time **35%** with AOT compilation, lazy loading, bundle splitting and route preloading (Vodafone Star Award, Feb 2025).
- Shipped an enterprise Angular migration **two weeks early with zero production defects** (Vodafone Star Award, Jun 2025).

Frontend Software Engineer — Obeikan Digital Solutions — Jul 2023 – Apr 2024 · Cairo

- Built Madar (madarplatform.com), an enterprise logistics platform, in Angular, TypeScript, RxJS and NgRx; improved performance **40%** with lazy loading and AOT.
- Delivered **5 major releases** with new logistics workflows, working with product, backend, QA and UX in Scrum.

Frontend Developer Intern — Imkan Solutions · built frontends for 10+ client projects (HTML, SASS, jQuery) — Jan – Mar 2018 · Saudi Arabia

SELECTED PROJECTS

YallaGo — cultural & sports booking platform — Side project

- Built the complete Angular frontend for 50+ events; raised user retention **85%** with simpler discovery and booking flows.
- Cut the initial bundle **40%** and API requests **60%** with lazy modules and client-side caching; 98% booking availability.

Sarild — enterprise workflow platform — sarild.com

- Built the Angular frontend from scratch: a dynamic form builder with **500+ fields** and tables handling **50K+ records**; reusable form components cut form development time **65%**.

TEACHING & COMMUNITY

Instructor, HTML & CSS — Information Technology Institute (ITI) — Cairo

- Taught the HTML & CSS course in ITI's 4-month full-stack code camp; students shipped their first portfolio sites from it. Share frontend content with **7,200+ LinkedIn followers**.
